The GS2AC was recently contacted by the Associate Producer of the Filipino Channel's "Speak Out" talk show program.

On Sept 8 they will be doing a one hour show on the topic of gun control They have contacted the GS2AC and asked us to provide both panelists and audience participants.

Don Kilmer and Darryl Davis will be speaking on our side of the issue. The Filipino Channel broadcasts reach people across the US and we will have the chance to impact literally hundreds of thousands of people world wide.

We need as many people as possible to register as audience participants to ensure this does not turn into a "Jerry Springer" event where the panelists get blindsided.

We need you there..... In the audience.... well dressed, well behaved, well informed, and ready to ask good questions designed to show how unreasonable the gun control perspective is.

Please follow the instructions listed below. Here are the details for attending the show.
